## FAMOUS USERS

Has worked with...  
Snow Patrol  
Chemical Brothers  
The The  
Vega 4  
many others

Has used...  
STC-1  
STC-1S

### ALAN BAILEY Sound Engineer

“I first used my STC-1S pair last April. I find it a much more effective and uncoloured than my existing Rode NT1. As well as being much more versatile, **it gives a much more natural recording than the Rode.**”

“I’ve been using the STC-1 on acoustic guitar, vocals and percussion. In the near future I’ll be using it for recording a country/blues band who have released a number of albums independently. I’ll be using the STC-1S with electric guitar, amps, acoustic guitar, violin and vocals.

“I’m going to be speaking to Snow Patrol’s producer about using the Sontronics range, and I’ll be offering trials of the mics to Chemical Brothers, The The and Vega 4 too.”
