DUNCAN WILLIAMS
Lecturer at City of Westminster College*
Sound engineer

“We’ve been using the Sontronics mics on a range of student projects and professional recordings.

“The build quality and presentation of the microphones is superb, but more importantly so is the sound.

“Using the STC-2 stereo pair as overheads, the far pricier German counterparts in our mic cupboard were blown away. Highly recommended.”

*City of Westminster College is just one of the establishments involved in the Sontronics Education Partnership Programme. Find out more details at www.sontronics.com/education.htm
